

Geric Holdings Led Lighting

## LED CANOPY Lights 75-150W

**LED CANOPY Lights** are used for direct replacement of traditional E40 high bay lights, trading in high efficiency and energy-saving. The adoption of high brightness LED as light source, makes lighting more uniform. Its die-casting IP65 aluminum fixture can guarantee outdoor working. Input voltage is AC85-265V, suitable for most countries of the world.

### Application:

- ✚ Replace traditional high bay lights.
- ✚ Illumination lighting for garages, hotels, malls, warehouses, parking lots, etc.

### Features:

- ✚ More uniform light by adopting high brightness LED as light source.
- ✚ Input AC to DC constant current Meanwell Driver.
- ✚ Comply with ROHS, no mercury or any other harmful substance.
